

Sent first Levitt a second time. Here's a second Levitt for the first time.

HELEN S. LEVITT
Photographer and
Film Editor

According to T-1 on February 3, 1958, this individual is believed to be the photographer and editor of a 16 mm documentary film about Los Angeles, tentatively to be called "The Savage Eye," and which is being produced by the ARF. Informant advised although the identification has not been confirmed completely, LEVITT may very well be identical with HELEN SLOAT LEVITT, wife of Hollywood film writer ALFRED

LEVITT, who in the past has been subpoenaed before the HCUA regarding his past affiliations with the CP. T-1 recalled that in September, 1952, HELEN SLOAT LEVITT was a member of a picketline at the Federal Building in Los Angeles to protest hearings by HCUA.

It is noted that according to the 1952 Annual Report of the House Committee, both HELEN and ALFRED LEVITT, described as a studio reader-writer, had been identified in sworn testimony as CP members. Each appeared under subpoena before the Committee on September 18, 1951, but refused to affirm or deny past or present membership in the CP.
